## Wants Divorce In Two Days

An attorney in this city has received a letter from a lady living in the East asking for information regarding the divorce laws of this state.

She states in the letter that she has been informed that a party arriving in Carson City and remaining here two days can gain the desired legal separation and go away rejoicing. She writes for particulars, stating that she anticipates taking a quick trip to this city to lose her present spouse and that she can only remain here two days at the most. She would like to know the line of procedure so that there will be no delay after she arrives at the Capitol City.

The attorney has notified her of the requirements of the law in regard to a residence of six months and Carson City will probably lose what might have been an additional resident, if only for two days.

Nevada is getting here share of advertising through the operation of the divorce laws in force and the opinion has gone forth that it is just as easy and as quick to get a legal separation as it is to get married. In many cases the former is somewhat more rapid than the latter and less expensive.

## Sweeney's Flag Flying Today

As in the past forty years Ed Sweeney floated the flag of Erin to the breeze opposite his residence this morning with the Stars and Stripes alongside, and the combination brought joy and a feeling of happiness to the natives and friends of the far-away land who reside in this city. Ed has been doing this stunt since the year 1 and on every St. Patrick's Day morning the people of this city always glance up King Street to see the familiar flags floating on the morning breeze.

Lost in Siberia, and others.

Illustrated songs—"I want to be a Soldier Boy in Blue." This song is one of Will Rossite's latest successes, and another beautiful ballad entitled, "Someday."

The above-named pictures are all the latest from the East and are very good. Don't fail to see them.

Joe Paten will put on a Rube specialty Thursday night. Crowded houses every night at this nice little theater.

On Saturday afternoon a big special matinee will be given. Entire change of program, something pleasing and interesting for the ladies and children. There will be numbers given to every child for the prizes at the matinee.

### MAIL TROUBLES

Austin is having some mail troubles. The Government advertised for bids for carrying the mails from Battle Mountain to Austin and \$70 was the lowest bid. The matter has been taken up with the Nevada representatives in Washington who report that the matter will be immediately settled and the mail contracts signed.

Gleason, formerly employed as counsel for Harry Thaw, from proceeding upon a suit for \$60,000 which Gleason brought in the United States Court in New York against Thaw.

The opinion was based on the ground that the debt was one from which Thaw will be discharged under the bankruptcy act.

### OUT OF CLASS

"You were requested to put out advertisement next to pure reading matter."

"Well, what are you kicking about? Didn't we do it?"

"Not at all! It was placed next to a Reno divorce scandal."

50 PER CENT. OF THE POPULATION OF THE U. S. live in rural districts remote from physicians or drug stores, and they are obliged to depend on proprietary medicines to a very great extent.

To the women in these homes such standard remedies as Lydia E. Pinkham's Vegetable Compound come as a boon and a blessing. Records show that it has cured more women of those dread feminine ills than any other remedy.

Will Murray has been appointed to take the school census for this county for the present year and will start forth the coming week to catalogue all kids in the county of the required age. Mr. Murray has also been acting as probation officer—or something of the sort for the past school term and has rounded up about a dozen youngsters who were of the opinion that they had enough education to carry them through life. Bill don't see it that way and as a result there are a number of additional pupils enrolled at the schools. This work is in the right direction and in after years the boys and girls who have been compelled to return to their classes will be thanking Murray for his efforts in their behalf although at the present time what they think of the gentleman would hardly be printable in a family paper.

Coffin has received word from her son Trenmor who is attending the Purdue Mechanical College at Lafayette, Indiana, that he is assisting Prof. Lacey of the college in testing the New York air brake, a new invention, and that a train of 100 cars is being used for the test. The test is being made under the supervision of Prof. Lacey and is being witnessed by the master car builders of a number of eastern roads.

The patent that is being tested is a new one and the claim is made that it is superior to any of the Westinghouse appliances. The testing of the new brake has caused a great deal of talk in the mechanical world and the fact that the professor of the big college selected Coffin to assist him speaks volumes for the mechanical ability of the young man which is already being recognized by the faculty of the college.

## St. Patrick Day Dance

All is in readiness for the St. Patrick's Day Dance at the Armory Hall to-night, which will be given by the Nevada State Band and by the sale of tickets it is evident that there will be a large crowd in attendance. It is sure to be one of the big doings of the present season.
